I tried all kinds of medicine but none of them did me any good. At last, I decided to try 'Fruit-a-lives'. I bought the first box last June, and now I am well, after using only three boxes. CHIROPRACTIC ADJUSTMENTS

The old idea that the cause of illness is outside the afflicted still prevails in most schools of healing; consequently the remedy consists in finding something outside the body, and by adjusting the body of the sufferer will drive out the disease.

The science of Chiropractic has demonstrated that the causes of disease are displaced and subordinated elements of the spinal column, and by adjusting that cause the condition can be corrected to the extent that the patient will recover from whatever ailment afflicts him.

NIANTIC MAY BE MOBILIZATION CAMP.

Has Been Recommended by Adjutant General Cole.

Niantic has been recommended by Adjutant General Cole, in answer to a request from the military department, as the most suitable place in the state for a mobilization of the National Guard, under the supervision of the southeastern department. The adjutant general has not received direct instructions regarding the use of the Niantic as a general mobilization camp, but considers its utilization probable.

The department orders issued through the militia bureau May 18, in regard to calling out the National Guard, make no provision for other mobilization in Connecticut than for about two weeks at company rendezvous. It is considered probable, however, that a general mobilization at Niantic will take place on June 24, 1917, in order to facilitate transportation of the units.

The order states that the drafting of the National guard troops into federal service will take place about July 23, and add that the supplies necessary for the equipment of the units as recruited to war strength will be received about that time.

Movements to the concentration camps in the southeastern department may be delayed awaiting construction of the camps.
